

# Plumbers & Steamfitters Local #33 Hosts Screening To Detect Your Risk For Stroke, Heart Issues & Diabetes In Under 60 Minutes!

## Members and Spouses Screen FREE!

I retired May 1st, 2014 at the age of 55. I knew that the union hall offered free health screenings, but I had never taken advantage of them. My thought was no work, no pay, so I never took the time off to go to it. I never expected them to find anything, but they found a large aneurysm in my stomach. If they hadn't found it, I would be taking a dirt nap now! So please, take 45 minutes out of your day if you ever get the opportunity for this screening with Stroke Detection Plus, it could possibly add many more years to your life as it has mine! Don Bryant - Des Moines, IA
